

Bringing Life Home 2019 Annual Recap

Summary

2019 has been a very successful year for Bringing Life Home. Our biggest project was the orphanage school in Ranchi, India. With the help of our supporters, we are making great progress in completing renovations to the school. Bringing Life Home also successfully held a charity event – kicking things off with a painting night competition.

Orphanage in Ranchi

The Orphanage in Ranchi has been our biggest project till date! With the support of donors, we have successfully been able to add proper doors, windows, and bathroom facilities. This project is ongoing, and we are excited to continue providing updates as progress is made.

Sweater Weather Project

Our Sweater Weather Project allowed us to donate over 200 warm sweaters to kids in Delhi before the winter season. These sweaters were distributed among two schools of the Center for Social Security Action & Research.

“Your Sweater Weather Project came as a boon to their tiny lives. They are overwhelmed to have those invaluable gifts...Thanks again for spreading smiles to our children in need”

- Center for Social Security Action & Research

Paint Night

We ended 2019 with a charity paint night event to spread the word about Bringing Life Home and raising money for the Orphanage in Ranchi.
